Punjab, India

Summary

Final-year B.Tech IT student (CGPA 7.6, graduating 2027) building scalable full-stack web applications using React.js, Node.js, Express.js, and MySQL. Experienced in building production-ready applications with AI model integrations via Groq API, JWT authentication, and automated financial analytics. Seeking a Full Stack / Software Development Internship.

Education

Chandigarh Engineering College, Landran **Expected Graduation: 2027**
B.Tech, Information Technology *CGPA: 7.6 / 10*
Relevant Coursework: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming (OOP)

Technical Skills

Languages: JavaScript (ES6+), C++, Java, SQL
Frontend: HTML5, CSS3, React.js, React Router v6, Axios, Responsive Web Design
Backend & Databases: Node.js, Express.js, RESTful APIs, MySQL, JWT Authentication
AI Integration: AI API, Prompt Engineering, LLM, Tokenization, Chunking
Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel
Familiar with: MongoDB, OpenAI & Gemini APIs, Vector Embeddings, RAG Architectures

Projects

- FinAI – Smart Expense Tracker** | *React.js, Node.js, Express.js, MySQL, Groq API* **Jul 2026 – Sep 2026**
- Engineered a full-stack personal finance web application using Groq AI to parse natural language spending inputs and automatically categorize transactions into categories like Food, Bills, or Transport.
 - Implemented dynamic budget tracking algorithms, interactive graphical analytics, real-time threshold alerts, and automated monthly spending summaries with tailored AI feedback.
 - Secured RESTful API endpoints using JWT authentication with tab-level session reset logic using `sessionStorage`; deployed application on Vercel. Live: ai-expense-tracker.vercel.app
- AI Resume Analyzer** | *React.js, Node.js, Express.js, MySQL, Groq API, Axios* **Mar 2026 – Jul 2026**
- Built a full-stack web application that evaluates resumes against job descriptions, returning structural feedback and key missing skill keywords using Groq API.
 - Developed a keyword-overlap scoring engine and designed MySQL database schemas to log user analysis histories; deployed front-end live on Vercel. Live: ai-resume-analyzer.vercel.app
- Resume Chatbot** | *React.js, Groq API, Vercel* **2026**
- Developed an interactive conversational portfolio AI trained on resume profile data using Groq API to answer recruiter queries regarding skills and projects. Live: resume-chatbot.vercel.app
- Portfolio Website** | *React.js, Vercel* **2026**
- Created a high-performance personal portfolio using React.js to feature software projects, skill certifications, and coding achievements. Live: portfolio.vercel.app

Experience

Web Development Trainee **Jun 2025 – Jul 2025**
ThinkNext, On-site *HTML, CSS, JavaScript, React.js*

- Developed 5+ dynamic, mobile-responsive web interfaces using HTML5, CSS3, JavaScript, and React.js.
- Implemented client-side input validations, custom event handlers, and reusable React components using React Hooks to improve codebase maintainability.

Achievements

- Solved 250+ Data Structures and Algorithms problems across LeetCode and GeeksforGeeks.
- Maintained high coding consistency on [GitHub](https://github.com) with **540+ contributions/pushes** over the past year across various full-stack and AI projects.

Certifications

- Oracle Database Certified – Relational Database Foundations, covering SQL query optimization and database design.
- AWS Academy Graduate – Generative AI Foundations (12-Hour Intensive Course, Dec 2025).
