Location: Punjab, India

Summary

Full Stack Developer and final-year IT undergraduate skilled in building web applications using React.js, Node.js, Express.js, and MySQL/MongoDB. Experienced in REST API development, third-party AI API integration, responsive UI development, and application deployment. Solved 250+ DSA problems on LeetCode and GeeksforGeeks. Actively seeking Software Development and Full Stack Development internship opportunities.

Technical Skills

Programming Languages: JavaScript (ES6+), C++, Java

Frontend Development: HTML5, CSS3, React.js, Bootstrap, Responsive Web Design

Backend Development: Node.js, Express.js, REST APIs

Database Management: MySQL, SQL, MongoDB

Full Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

AI / Generative AI: Prompt Engineering, LLM Integration (OpenAI, Gemini, Groq), Embeddings, RAG, Vector Databases, AI Agents, Function Calling

Tools: Git, GitHub, Postman, Visual Studio Code

Concepts: Data Structures and Algorithms, Object-Oriented Programming, Debugging

Experience

Web Development Trainee

June 2025 – July 2025

ThinkNext, On-site

Technologies: HTML, CSS, JavaScript, React.js

- Developed 5+ responsive web pages using HTML, CSS, JavaScript, and React.js with consistent layouts across desktop, tablet, and mobile devices.
- Implemented JavaScript-based interactivity, including dynamic forms, event handling, and client-side input validation.
- Built reusable React.js components using props and state management to reduce duplicate UI code and improve maintainability.
- Performed debugging and code reviews during practical development tasks, strengthening problem-solving and front-end development skills.

Projects

NexAI – AI Chat Assistant — React.js, Node.js, Express.js, MySQL, Groq AI API

Dec 2025 – Jan 2026

- Developed a full-stack AI-powered chatbot with responsive React.js interface and real-time conversational responses via Groq AI API.
- Implemented Node.js/Express.js backend with REST endpoints and MySQL database for chat history and user data.
- Deployed application on Vercel, enabling recruiters and users to interact seamlessly with the assistant.

AI Resume Analyzer — React.js, Node.js, Express.js, MySQL, Groq AI API, Axios

March 2026 – Jul 2026

- Built a web app that analyzes resumes against job descriptions, providing automated feedback and keyword-based insights using Groq AI API.
- Designed a resume-to-job matching score to highlight relevant skills and identify gaps for applicants.
- Integrated MySQL for structured data storage and deployed frontend on Vercel for easy recruiter access.

Additional Projects

- Portfolio Website (2026)** – Built a modern React.js portfolio showcasing projects, certifications, and achievements, deployed on Vercel for seamless recruiter access.
- Resume Chatbot (2026)** – Created an AI-powered chatbot acting as an interactive resume, answering recruiter-style questions using Groq AI API and deployed on Vercel.

Achievements

- Solved 250+ Data Structures and Algorithms (DSA) problems on LeetCode and GeeksforGeeks.
- Showcased quick thinking and subject knowledge by advancing in a competitive technical quiz on Operating Systems.

Certifications

- Oracle Database Certified – validated skills in relational database concepts and SQL.
- AWS Academy Graduate – Generative AI Foundations (12 hours training, issued Dec 2025).

Education

Chandigarh Engineering College, Landran

B.Tech, Information Technology

CGPA: 7.6 / 10

Expected Graduation: 2027
